

**NEW RIVER COMMUNITY COLLEGE
DUBLIN, VIRGINIA**

COURSE PLAN

Course Number and Title: MTH 162 Precalculus II

Prepared by: Mathematics Department Fall 2022
(Date)

Approved by: *S. Tolbert-Hungry* Fall 2022
(Dean) (Date)

I. Course Description

Presents trigonometry, trigonometric applications including Law of Sines and Cosines, and an introduction to conics. This is a Passport and UCGS transfer course.

Prerequisite: Placement or completion of MTH 161: Precalculus I or equivalent with a grade of C or better. Lecture 3 hours per week. Credit will not be awarded for both MTH 162 : Precalculus II and 167 : Precalculus w/ Trig or equivalent.

II. Introduction

The course satisfies a mathematics requirement for many degree programs. The course is designed to develop the skills and concepts which are needed for MTH 263 Calculus I and other advanced mathematics courses in engineering and mathematics related fields. It does not count toward a degree in engineering.

III. Student Learning Outcomes

Upon successful completion of this course, the student will be able to:

- A. Trigonometric Functions
 - a. Identify angles in standard form in both degree and radian format and convert from one to the other.
 - b. Find the arc length.
 - c. Find the value of trigonometric functions of common angles without a calculator using the unit circle and right triangle trigonometry.
 - d. Use reference angles to evaluate trig functions.
 - e. Find the value of trigonometric functions of angles using a calculator.
 - f. Use fundamental trigonometric identities to simplify trigonometric expressions.
 - g. Graph the six trigonometric functions using the amplitude, period, phase and vertical shifts.
 - h. Use trig functions to model applications in the life and natural sciences.
- B. Analytic Trigonometry

- a. Use the fundamental, quotient, Pythagorean, co-function, and even/odd identities to verify trigonometric identities.
 - b. Use the sum and difference, double angle, half-angle formulas to evaluate the exact values of trigonometric expressions.
 - c. Determine exact values of expressions, including composite expressions, involving inverse trigonometric functions.
 - d. Solve trigonometric equations over restricted and non-restricted domains.
- C. Applications of Trigonometry
- a. Solve right triangles and applications involving right triangles.
 - b. Use the Law of Sines and Cosines to solve oblique triangles and applications.
- D. Conics
- a. Identify the conic sections of the form: $Ax^2 + By^2 + Dx + Ey + F = 0$.
 - b. Write the equations of circles, parabolas, ellipses, and hyperbolas in standard form centered both at the origin and not at the origin.
 - c. Identify essential characteristics unique to each conic.
 - d. Graph equations in conic sections, centered both at the origin and not at the origin.
 - e. Solve applications involving conic sections.
- E. Sequences and Series (Optional unit at the discretion of the department, not required for transfer.)
- a. Identify the terms of geometric sequences.
 - b. Find a particular term of geometric sequence.
 - c. Determine the formula for the n th term of geometric sequences.
 - d. Find the sum of first n terms of finite geometric series.
 - e. Find the sum of infinite geometric series.
 - f. Introduce arithmetic concepts as time allows.

IV. General Education Student Learning Outcomes Included in Course

General education at NRCC provides the educational foundation necessary to promote intellectual and personal development. Upon completing the associate degree, graduates will demonstrate competency in student learning outcomes in 1) civic engagement, 2) critical thinking, 3) professional readiness, 4) quantitative literacy, 5) scientific literacy, and 6) written communication.

This course includes the following general education student learning outcomes:

- Explain numerical information presented in mathematical forms (e.g., equations, graphs, diagrams, tables, words).
- Convert relevant information into various mathematical forms (e.g., equations, graphs, diagrams, tables, words).
- Accurately solve mathematical problems.

V. Instructional Methods

The instructional procedures will include lectures, discussions, in class work, homework, reviews and tests.

VI. Instructional Materials

Textbook: **Precalculus, 3rd Corrected Edition free eBook** by Stitz & Zeager
Trigonometry by Pablo Chalmeta

Software: MyOpenMath <https://www.myopenmath.com/>

Calculator: Students are allowed to use a TI 30XIIS or equivalent.

Other: Pencils and paper. Ink is not to be used for any graded work

VII. Course Content

- Conic Sections
- Trigonometric Functions
- Analytic Trigonometry
- Applications of Trigonometry

VIII. Evaluation

The grade for the course will be calculated from Tests, online homework, a final exam and other work as deemed appropriate by the instructor. See individual syllabus for details on percentages/points.

IX. Attendance

Regular attendance at classes is required. When absence from a class becomes necessary, it is the responsibility of the student to inform the instructor prior to the absence whenever possible. The student is responsible for the subsequent completion of all study missed during an absence. Any instruction missed and not subsequently completed will necessarily affect the grade of the student regardless of the reason for the absence.

X. Cheating Policy

The giving or receiving of any help from another student or unauthorized individual on any graded portion of the course is considered cheating and will not be tolerated. The use of books, notes, electronic devices of any other unauthorized material during tests is considered cheating, and will not be tolerated. Any student found cheating will receive a grade of “0” on that assignment and may receive an “F” for the course. This “0” cannot be replaced by any other score. Mobile phones are not permitted to be used as calculators.

XI. Withdrawal Policy

Student Initiated Withdrawal Policy

A student may drop or withdraw from a class without academic penalty during the first 60 percent of a session. For purposes of enrollment reporting, the following procedures apply:

- a. If a student withdraws from a class prior to the termination of the add/drop period for the session, the student will be removed from the class roll and no grade will be awarded.
- b. After the add/drop period, but prior to completion of 60 percent of a session, a student who withdraws from a class will be assigned a grade of “W.” A grade of “W” implies that the student was making satisfactory progress in the class at the time of withdrawal, that the withdrawal was officially made before the deadline published in the college calendar, or that the student was administratively transferred to a different program.
- c. After that time, if a student withdraws from a class, a grade of “F” or “U” will be assigned. Exceptions to this policy may be made under documented mitigating circumstances if the student was passing the course at the last date of attendance.

A retroactive grade of “W” may be awarded only if the student would have been eligible under the previously stated policy to receive a “W” on the last date of class attendance. The last date of attendance for a distance education course will be the last date that work was submitted.

Late withdrawal appeals will be reviewed and a decision made by the Coordinator of Admissions and Records.

No-Show Policy

A student must either attend face-to-face courses or demonstrate participation in online courses by the last date to drop for a refund. A student who does not meet this deadline will be reported to the Admissions and Records Office and will be withdrawn as a no-show student. No refund will be applicable, and the student will not be allowed to attend/participate in the class or submit assignments. Failure to attend or participate in a course will adversely impact a student’s financial aid award.

Instructor Initiated Withdrawal

A student who adds a class or registers after the first day of class is counted absent from all class meetings missed. Each instructor is responsible for keeping a record of student attendance (face-to-face classes) or performance/participation (online classes) in each class throughout the semester.

When a student’s absences equal twice the number of weekly meetings of a class (equivalent amount of time for summer session), the student may be dropped for unsatisfactory attendance in the class by the instructor.

Since attendance is not a valid measurement for online courses, a student may be withdrawn due to non-performance. A student should refer to his/her online course plan for the instructor’s policy.

When an instructor withdraws a student for unsatisfactory attendance (face-to-face class) or non-performance (online class), the last date of attendance/participation will be documented. Withdrawal must be completed within five days of a student’s meeting the withdrawal criteria. A grade of “W” will be recorded during the first sixty percent (60%) period of a course. A student withdrawn after the sixty percent (60%) period will receive

a grade of “F” or “U” except under documented mitigating circumstances when a letter of appeal has been submitted by the student. A copy of this documentation must be placed in the student’s academic file.

The student will be notified of the withdrawal by the Admissions and Records Office. An appeal of reinstatement into the class may be approved only by the instructor.

XII. Disability and Non-Discrimination Statements

If you are a student with a documented disability who will require accommodation in this course, please register with the Disability Services Office located in the Advising Center for assistance in developing a plan to address your academic needs.

This College promotes and maintains educational opportunities without regard to race, color, national origin, religion, disability, sex, sexual orientation, gender identity, ethnicity, marital status, pregnancy, childbirth or related medical conditions including lactation, age (except when age is a bona fide occupational qualification), veteran status, or other non-merit factors.

XIII. Evacuation Procedure

Evacuation Procedure: Please note the evacuation route posted at the classroom doorway. Two routes are marked in case one route might be blocked.
